Description

Required extension and compatibility

This template plugin requires VM Mail & Invoice Studio VM5 version 1.0.1 or later. Install the matching Studio core extension before installing this pack. The core extension is sold separately and is not included in this download.

Choose the pack edition that matches your website:

Requirements for template pack edition

Edition	Joomla	VirtueMart	PHP
VM5	Joomla 6	VirtueMart 5	8.3 or later

PDF invoices also require VirtueMart's TCPDF component, installed separately. Install only the edition matching your Studio setup.

Email and invoice template plugin · Release 1.0

VM Mail Invoice Studio Template Pack v1.0

Give your VirtueMart order emails and invoices a coordinated look with four additional design presets.

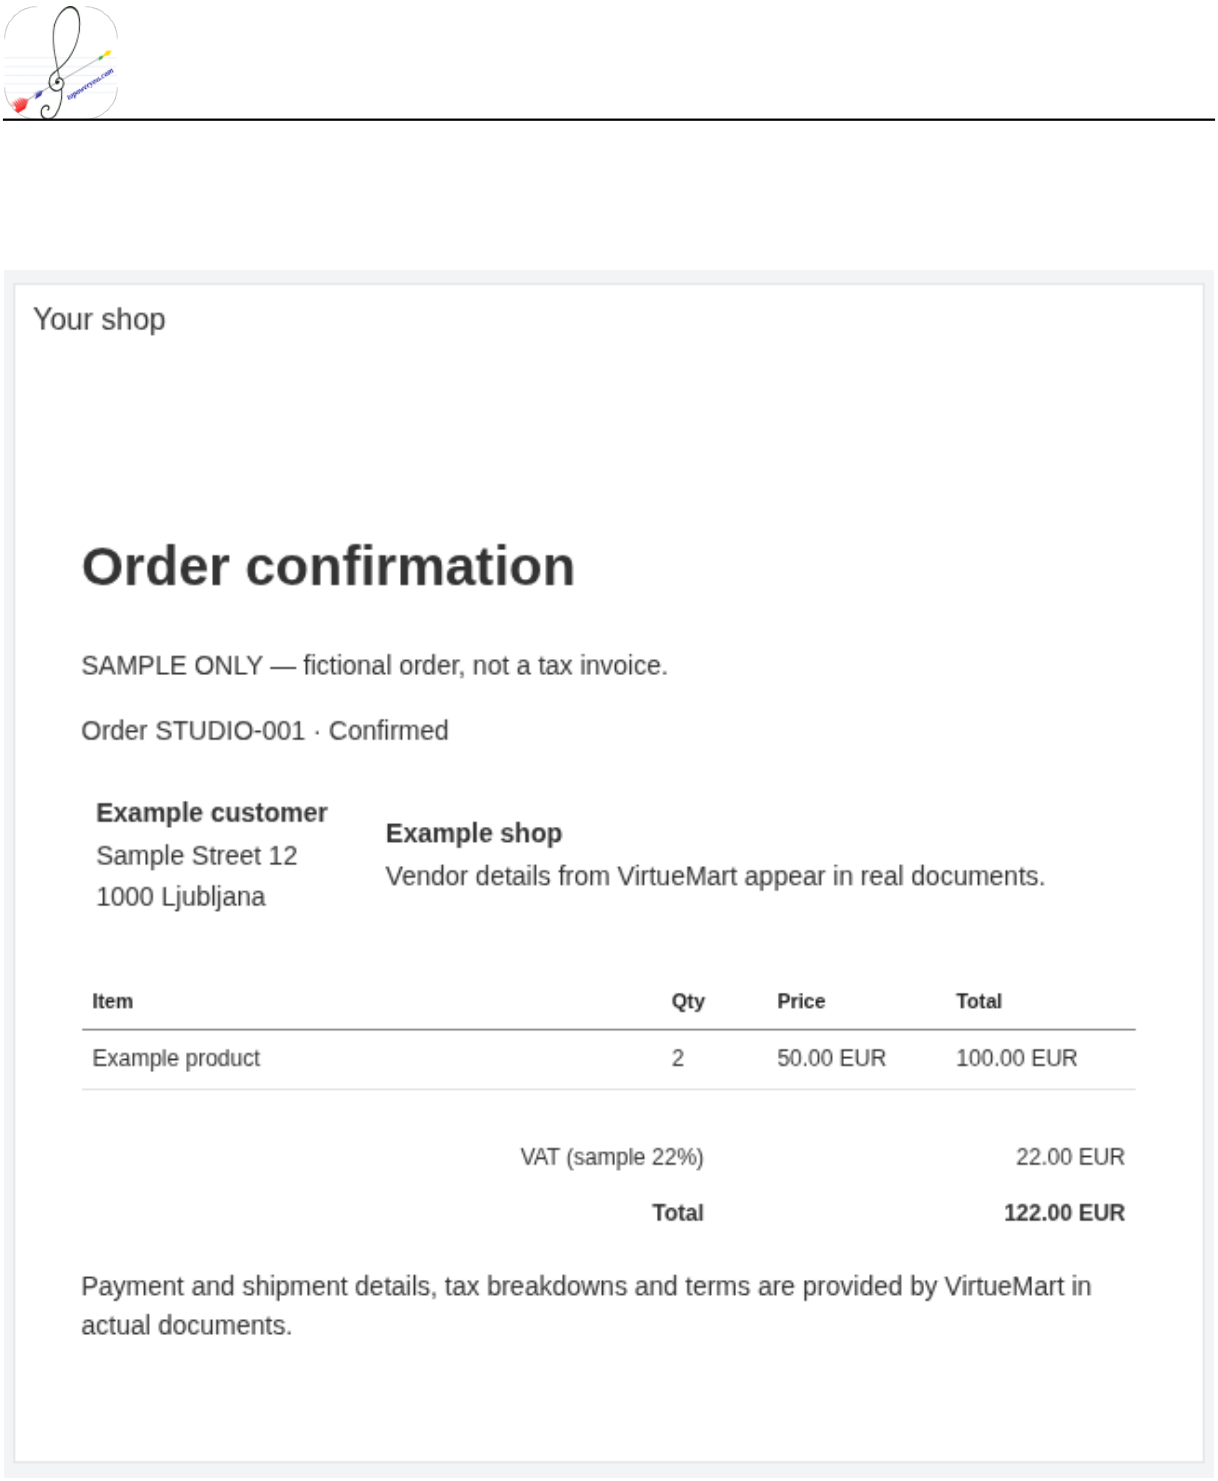

Choose a matching style for both document types, or select a different preset for emails and invoices in Studio. The pack adds presentation options to your existing workflow while keeping your shop's order details, prices and totals.

Four designs included

Each design includes an HTML email layout and an invoice layout for use through Studio:

Monochrome Professional

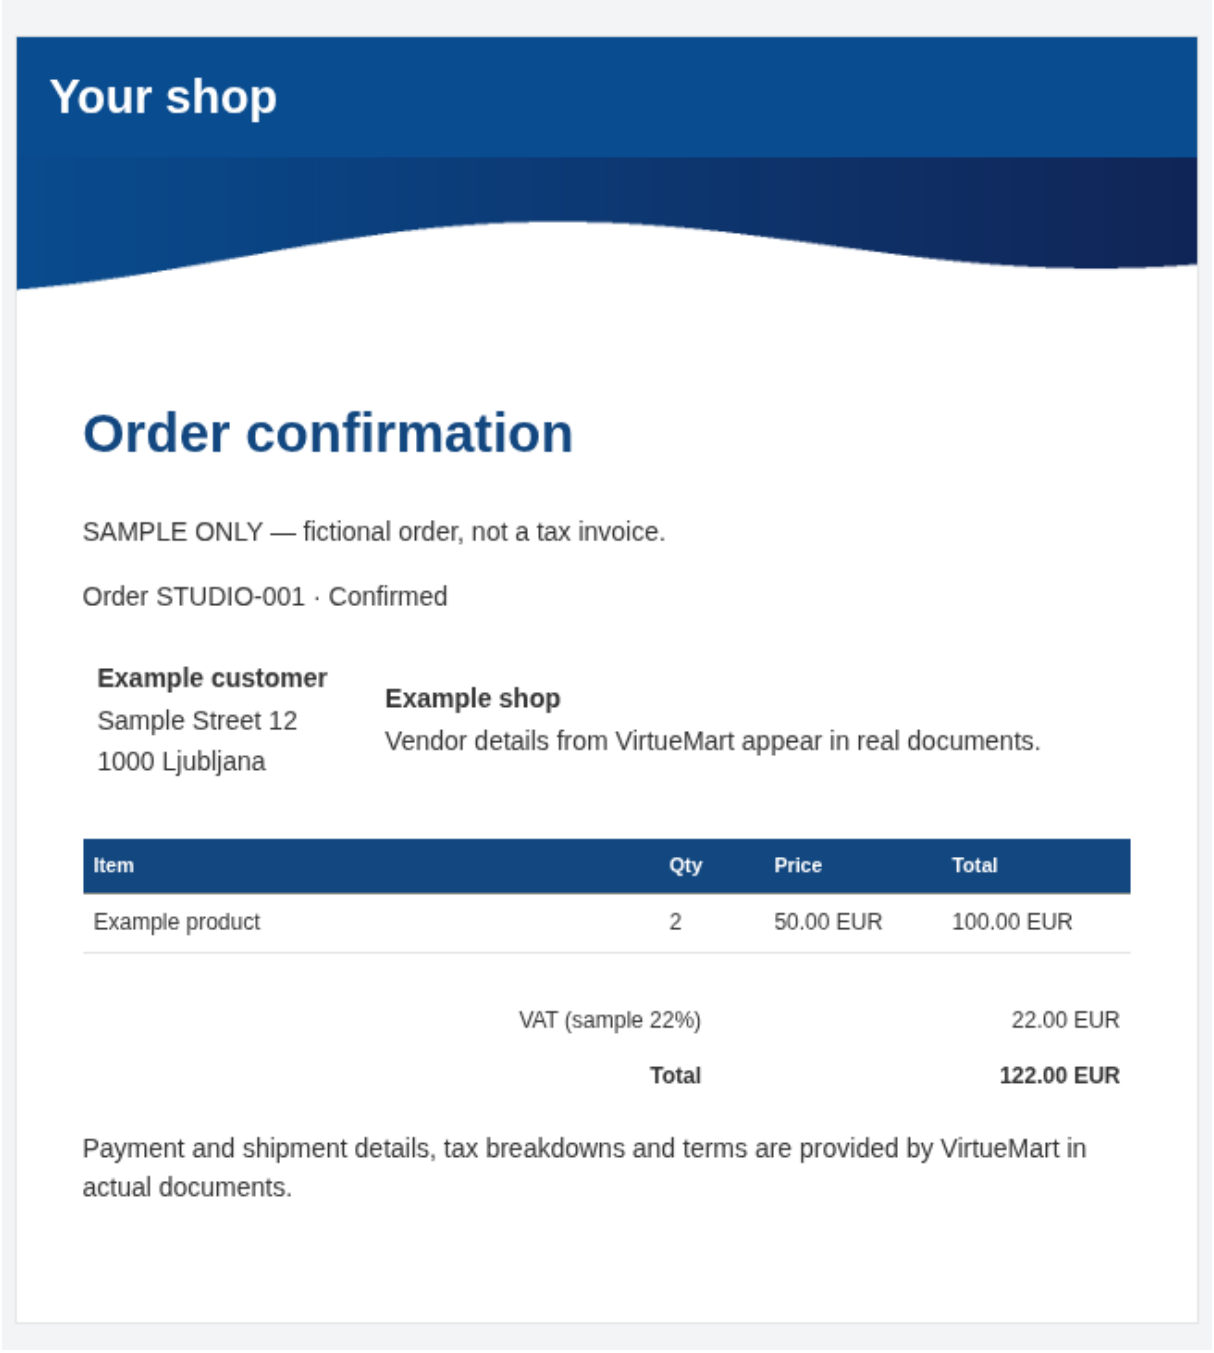

a restrained monochrome style for business correspondence.

Monochrome Professional Template

Blue Professional

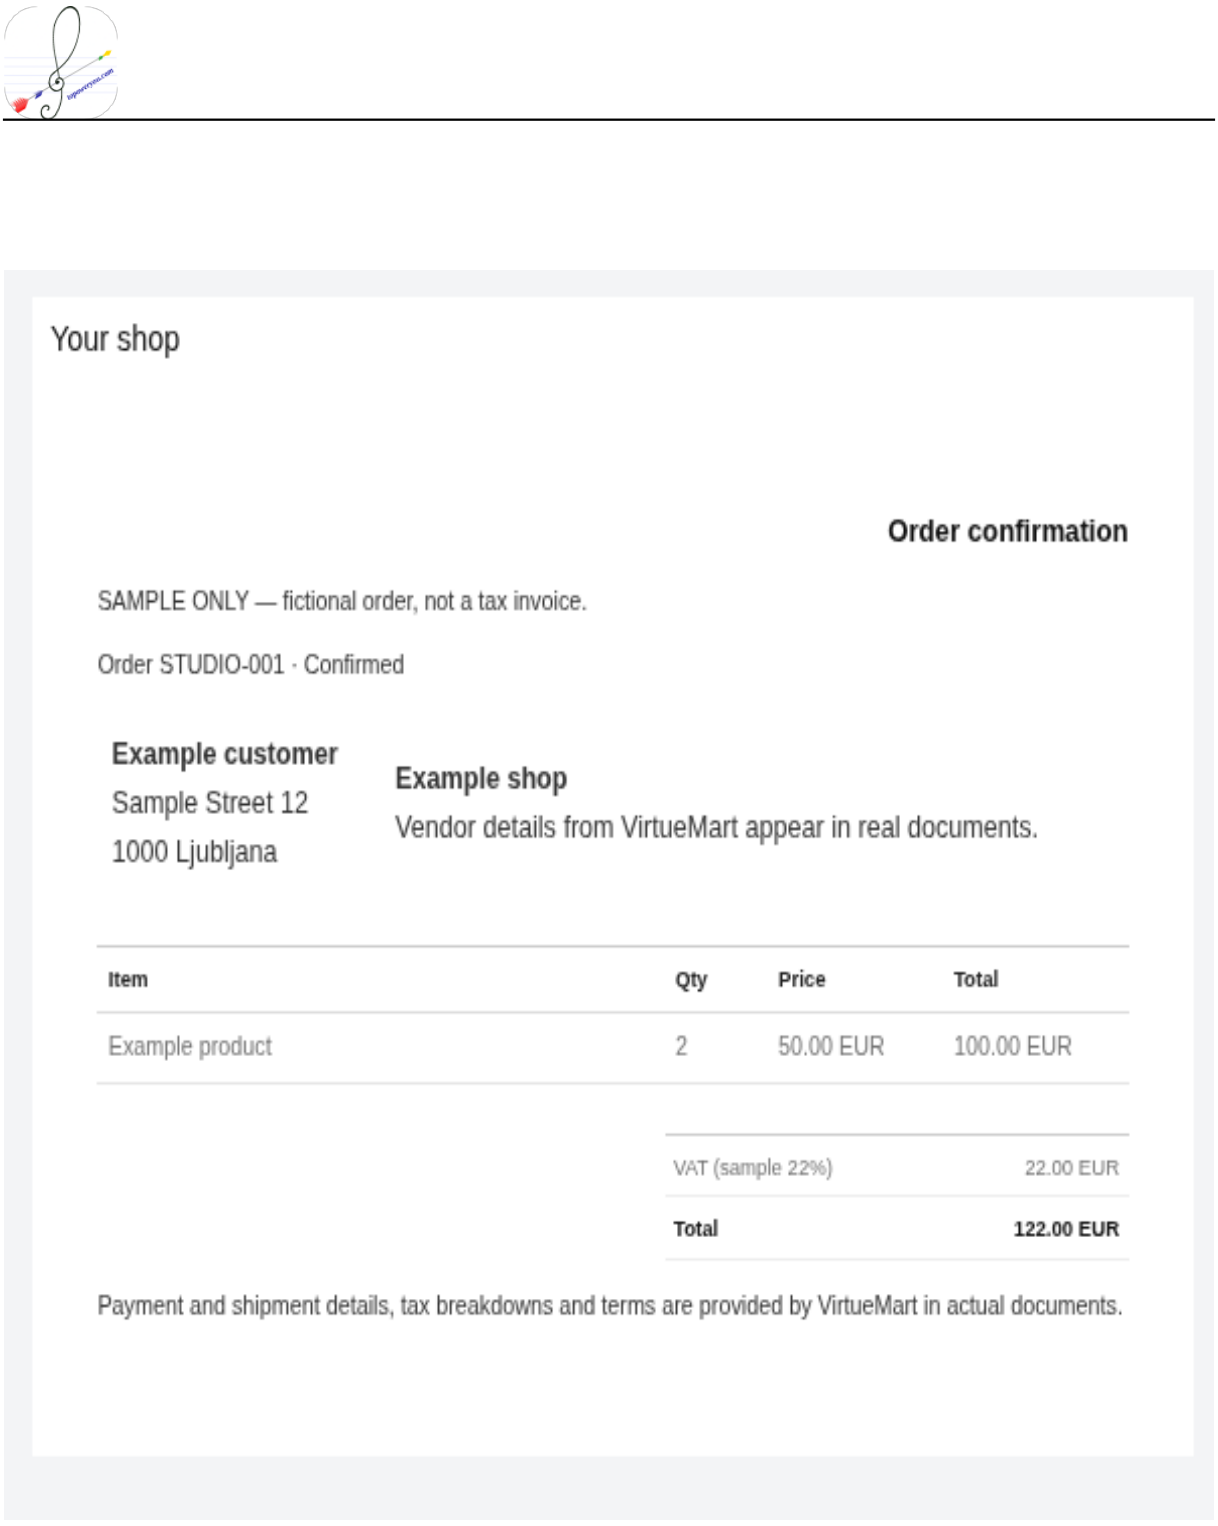

blue headings and wave artwork for a distinctive, coordinated appearance.

Blue Professional Template

Minimal Signature

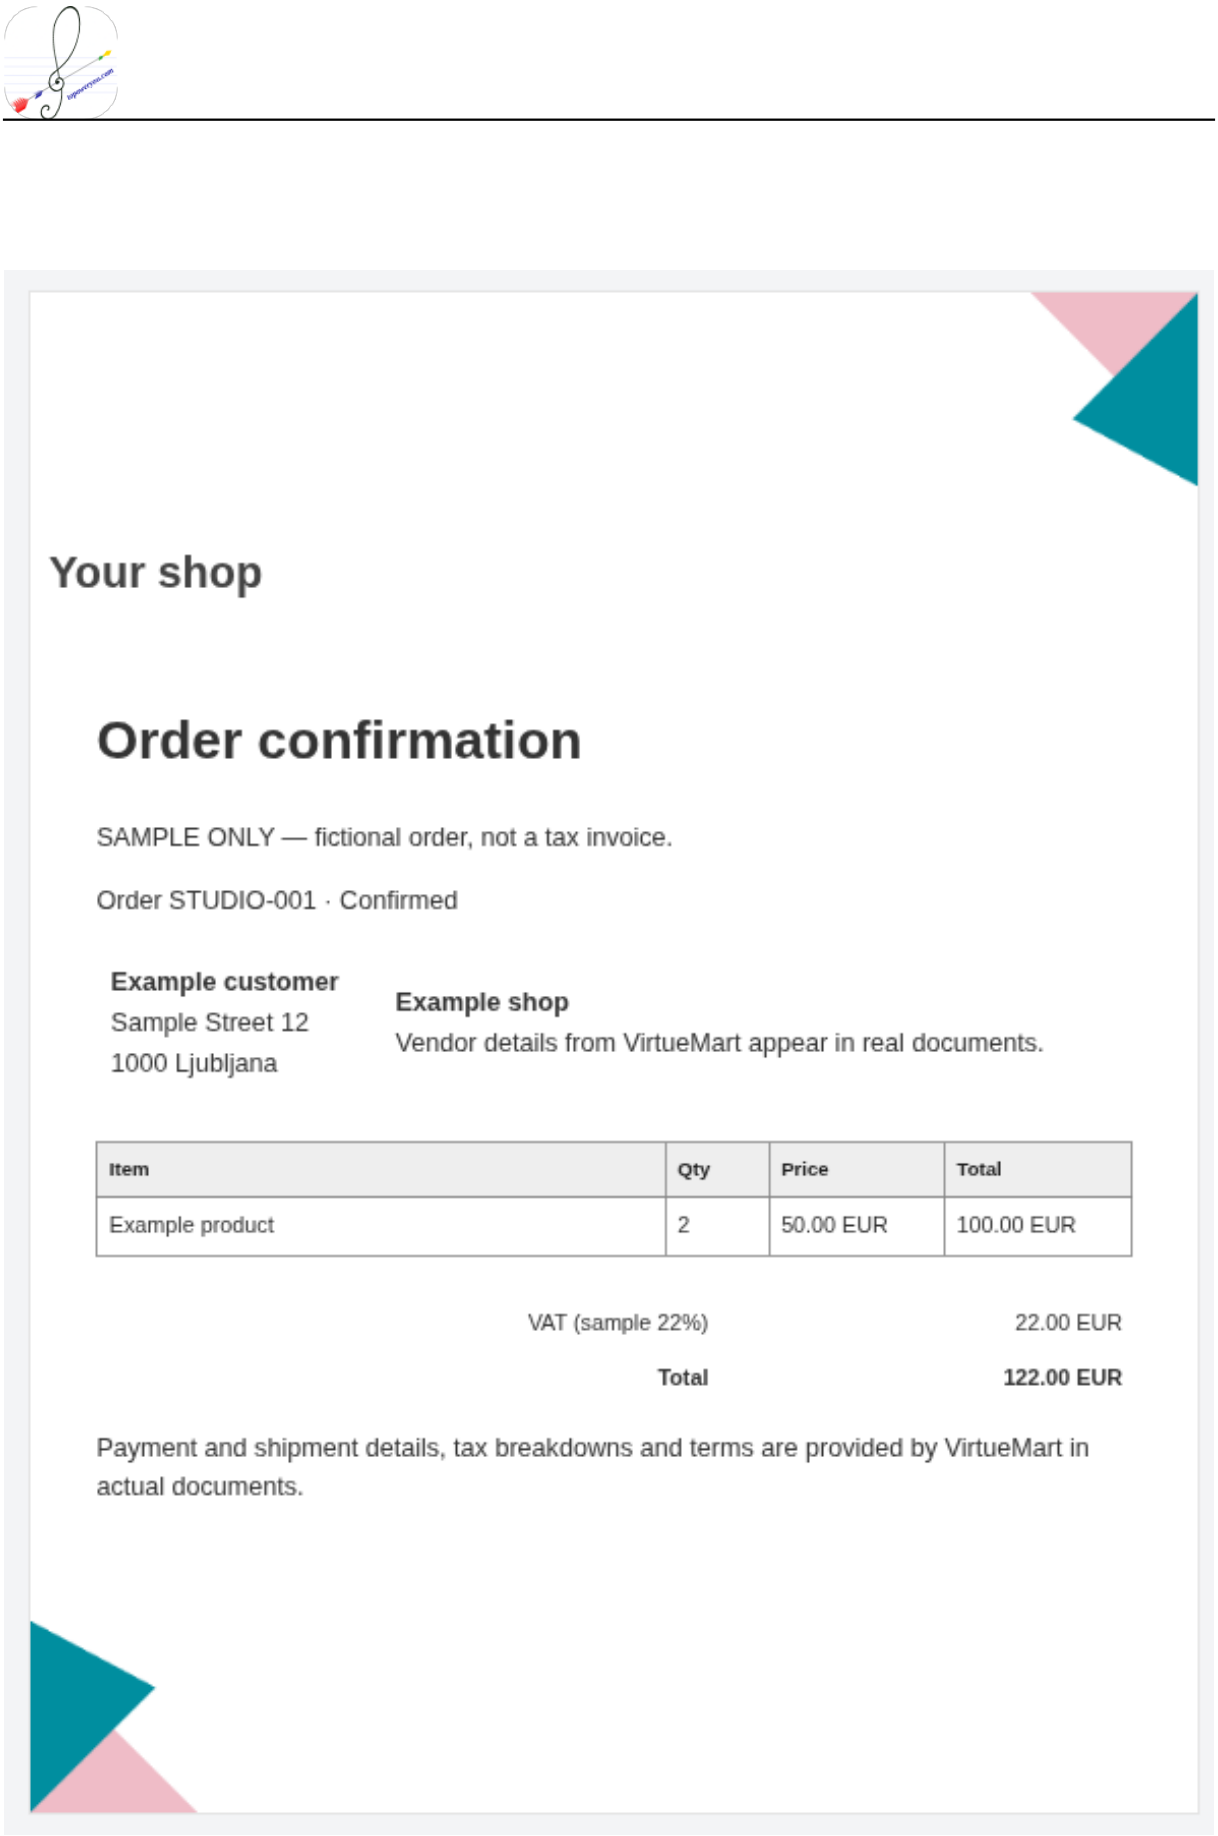

a simple, understated layout that keeps attention on the order details. No handwritten or digital signature is included.

Minimal Signature Template

Pink & Teal

a colourful design with decorative corner artwork.

Pink & Teal Template

The pack includes compact invoice details, distinct item-table styling, email wrappers and the decorative artwork used by the designs. Design colour palettes are fixed.

Getting started

1. Install and configure the matching VM Mail & Invoice Studio core extension.
2. Install the template pack ZIP through Joomla's extension installer.
3. Enable **VM Mail Invoice Studio Template Pack v1.0** in Plugins and set its access to Public.
4. Open Studio, choose your Email and Invoice presets, enable the desired document types and save.
5. Apply Studio's overrides if they are not already active, then preview and test a newly generated invoice and an actual order email.

Before you purchase

This download contains the template plugin for your selected edition. It requires the Studio core, Joomla, VirtueMart and the PDF dependency listed above.
Layouts adapt to your shop's content. Logos, translated labels, tax details, payment-plugin output and order length can affect spacing and pagination. Email clients may hide decorative images; the document content remains readable. Existing archived PDF invoices are unchanged.
Release 1.0. Licensed under the GNU General Public License, version 2 or later.
