Description

VM Smart Filters - demo

String, list

String, searchable attribute

Product Height (cm)

Product Length (cm)

Product Weight (g)

Product Width (cm)

How the filters work

VM Smart Filters displays filters using the public custom fields assigned to your products. Shoppers select a value or enter a measurement range, and the page reloads with matching products.

Product attributes

Searchable String fields appear as selection lists for attributes such as colour, material and size.

Measurement ranges

Property fields provide minimum and maximum filters for length, width, height and weight.

Combined selections

Products must match every selected filter. For example, Colour: Blue and Size: Large returns products matching both.
